

Automotive

Our firm has extensive experience in providing legal counsel to companies in the automotive industry. We offer comprehensive services to both local and international clients in this field, including:

- Manufacturers of components for the automotive industry
- Automotive technology suppliers
- Companies specializing in the development and production of automotive systems

The firm represents several leading companies in the automotive industry, including:

1. Raval A.C.S. - A leading manufacturer of automotive venting valves, with a global presence
2. Arkal Automotive A.S. - A leading company in weight reduction solutions for the global automotive industry
3. Tadir-Gan (1993) - A global manufacturer of aluminum products for the automotive industry
4. Ortal Diecasting - Specializes in the development and production of high-pressure die-cast magnesium products
5. MAG-EH - A global supplier of mechanical and electro-mechanical assemblies for the automotive industry

Key achievements:

1. IPO guidance: The firm guided Raval A.C.S. Ltd. in its initial public offering on the Tel Aviv Stock Exchange.
2. Mergers and acquisitions: Representation of MAG-EH Ltd. shareholders in the company's sale in 2019.
3. R&D agreement consulting: The firm provides comprehensive advice on R&D agreements for its automotive industry clients.
4. Intellectual property: Assistance in filing and maintaining patents and other intellectual property for automotive industry clients.
5. Commercial agreements: Drafting and guidance in manufacturing, supply, and distribution agreements, including engagements with OEMs and Tier 1 suppliers.
6. Product liability consulting: Providing advice on product liability and insurance coverage for automotive industry clients.
7. Global expansion support: Assisting clients like Raval in establishing subsidiaries in various countries such as Germany, Spain, and Mexico.
8. Legal dispute representation: Legal representation in dispute resolution and litigation management for automotive industry clients.
